

# PROFESSIONAL FILTRATION BREWERY

HiFlux AUTO-LINE® filters are specially designed for automatic filtration of various products at breweries.

*World leading company producing customized hygienic filter solutions. Increased food security, productivity and better profitability.*

HiFlux Filtration A/S

## About the AUTO-LINE® Automatic filter

Installed at several of the largest breweries in the world.

### Before installation:

Cleaning manual filters regularly, high maintenance costs, downtime in production.

### After installation:

Automatic process, increased productivity, minimal maintenance, no production stops.

## Facts for the Auto-line® Automatic filter

Complies to the regulations EC1935/2004 and EU 10/2011, as well as the FDA standards. CIP friendly design with respect to the hygienic design recommendations by the European Hygienic Equipment Design Group (EHEDG).

HiFlux Auto-line® Filter has been designed as a compact, self-cleaning filter. The sturdy construction of the filter makes it well suited for applications in which operational reliability and dependability are essential.

Accurate filtration down to 35 micrometers [ $\mu\text{m}$ ].

## FEATURES

- **Removes unwanted particles**  
Homogeneous and uniform product.
- **Ensures the quality**  
Increased food safety.
- **Continuous flow process**  
No production stops.
